C2006-23 SWAN RIVER CROSSING

Proposed amendment submitted by Cr Bryn Jones

To amend part 2, f. of the officer's recommendation by adding the words shown in green text:

2. Adopts the following principles to assist with the City's analysis and feedback to Government as the project unfolds and develops:
 - f. **PUBLIC REALM & PLACE – That all public realm either created or modified by this project is safe, attractive, connected and inviting – with the potential to be extended and further connected with future riverside enhancements and developments – specifically:**
 - that increased curtilage is created in front of the Naval Stores building on Canning Highway to assist with activating this building and connection to foreshore
 - **That the character of the North Fremantle Townsite is protected and extended towards the river, in particular, that no additional traffic is planned through this historic local centre.**

Reason for change:

To highlight the importance of the North Fremantle Townsite in the recommendation, as identified and discussed in the body of the report.

C2006-23 SWAN RIVER CROSSING

Proposed amendment submitted by Mayor, Brad Pettitt

To amend part 3 of the officer's recommendation to add the wording shown in green text below:

3. Requests that MRWA commence community engagement as soon as possible, and that this engagement process includes a full and transparent evaluation of design options and bridge alignments that respond to the principles noted above **and that at least two distinctly differently alignment options be presented in full for community and Council input;**

Reason for change:

To request Main Roads provide at least two options for the community and council provide input into.
